Nordale 23 offers a unique experience with its exciting design, unique shape and unlimited possibilities.

Nordale 23, designed in Sweden by Swedish designers, constructed by Swedish engineers is a unique example of famous Swedish quality and made for those who know what they want and wish to stand out from the crowd. With an unreal and futuristic design, the emphasis is placed on fantastic sailing characteristics, so that already with a 100 hp engine, the Nordale 23 reaches speeds of 32 knots. The boat is certified for 8 passengers. The large sunbed is located at the stern and can accommodate 4 passengers. On the bow are two benches and a seat in front of the console, for comfortable accommodation of up to 5 passengers.

Endless styling

From colors, to layout, past technologies and accessories, we are ready to customize your boat the way you like it!

At Nordale we don't just satisfy our customers' expectations, we exceed them.
